We ask that applicants call us to verify space, if 30 days or less. Mostly, because packets have to be shipped in advance to the proctor and arrival date of the exams is dependent on the proctor's departure date for the event.

SIMA

We ask that you register 3 weeks in advance of the test date. Currently, the application is not available online, but here is the link to download it and you'll also find some FAQ's here.
